There were five of them when they first met at surf camp on Harbour Bridge Island: Avery, Isabella, Odina, Lee, and Josie. Best friends, beautiful, careless, and inseparable for summers to come. Until one fateful summer festival night, when one of them goes missing.

Years later, Avery returns to the island a successful rock star on the brink of burnout. Hoping to refuel her creativity and to keep herself from falling for her band-mate Jake, Avery is torn between protecting her feelings, the band, and the secrets of her past. Her old friends also continue to wrestle with Josie's disappearance and together they try to salvage what is left of their friendship amidst missed chances, lost dreams, and romantic entanglements.

Isabella White, the all-American girl, has everything anyone could ever hope for: a big car, an even bigger house, and a huge legacy as a luxury hotel heiress. Yet, Isabella remains unhappy. And ever since Avery came back to Harbour Bridge and started digging around in the past on the island, Isabella can no longer sleep peacefully. Particularly so when her annoying (and annoyingly attractive) neighbor Preston starts construction works that slowly drive Isabella out of her mind.

And as if that weren't enough, when Isabella opens the Harbour Chronicle one morning to find her own obituary in it – with details that only the missing Josie could know. Unraveling what happened ten years ago has never been more urgent as Isabella is certain: she is to blame for what happened to Josie.

The third part of the puzzle – full of dangerous secrets and steamy romance.

Odina Bianchi is the keeper of many secrets. For one, she started an affair with Noah, Avery's outrageously charming brother. She also knows much more about Josie's disappearance than she lets on, but it has become increasingly hard to conceal the truth since she reconnected with Isabella and Avery: ten years ago, Odina made a promise to Josie and buried 100,000 dollars for her. Which is exactly the kind of money Odina needs to make a good life for her son Jamie and herself.

But events take a turn for the worse: Odina receives an ambiguous tip about the money, her family threatens to take Jamie to Italy with them – and Noah steals her heart, whether she wants him to or not. Odina must decide what is important to her when, suddenly, there is a clear sign of life from Josie.

The grand series finale – forced proximity, shared guilt, and gripping revelations.

Lee is finished. At rock bottom. Her dream and surfing career are over, everything is lost. She lives in Hawaii, newly separated from her girlfriend Dakota, and is struggling with the consequences of a serious accident that cost her an arm and her professional future.

At the lowest point in her life, Lee receives a disturbing message from Harbour Bridge and realizes that the past will only ever be put to rest once it has been dealt with. She returns to the island and takes up residence in the supposedly empty vacation home of her first love, Parker. Parker's presence makes her painfully aware of all that she's lost – and then there's the memory of Josie. Who continues to be hauntingly present on the island, even ten years after her disappearance.

The big finale of the bestselling series tells the story of Lee and Josie and uncovers the missing pieces of the mysterious disappearance that binds Avery, Isabella, Odina, and Lee together. And may finally set them free.

***Breaking Waves* is a must-read for fans of Taylor Jenkins Reid and Colleen Hoover – the series is as exciting as it is emotional, an instant reader's favourite!**
